EDUCATION

Bachelor of Technology in Computer Science Engineering

Expected July 2028

Vellore Institute of Technology (VIT), Vellore, India

CGPA: 8.7 / 10.0 (Top cohort; No active backlogs)

Core Coursework: Algorithms, Data Structures, Operating Systems, DBMS, OOP, Computer Networks.

TECHNICAL SKILLS

Programming Languages	Java, Python, C++, JavaScript (ES6+), C.
Backend & Cloud	Node.js, Express.js, FastAPI, Microsoft Azure, Vercel, RESTful APIs.
Databases & Data Eng.	MongoDB, SQL / Relational Databases, Pandas, NumPy.
Architecture & Tools	Agile Methodologies, CI/CD, Application Resiliency, Git/GitHub.
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Figma.

PROJECTS

Industrial IoT Predictive Asset Manager

Python, FastAPI, React.js, Pandas

- **End-to-End Ownership:** Architected a real-time IoT system to predict industrial mechanical failures.
- **Advanced Analytics:** Engineered a custom predictive model to forecast hardware degradation 48 hours in advance.
- **Reporting:** Built dynamic React.js dashboards and automated Python logging for system health monitoring.

StudyCoach AI (Generative Educational Platform)

Node.js, OpenAI API, Azure, Vercel

- **AI Integration:** Integrated OpenAI API with a custom Node.js parser to transform unstructured PDFs into study plans.
- **Cloud Infrastructure:** Deployed a resilient Hybrid Cloud architecture using Microsoft Azure and Vercel.
- **Interactive Features:** Developed dynamic Q&A modules for automated student self-assessment.

Camp Board (Campus Resource Grid)

MongoDB, Express.js, React.js, Node.js

- **Secure Development:** Developed a centralized platform for 500+ users with strict Role-Based Access Control (RBAC).
- **Database Optimization:** Optimized MongoDB aggregation pipelines to maintain sub-200ms query execution times.

CERTIFICATIONS & ACHIEVEMENTS

Oracle Certified Foundations Associate (Java): Validated expertise in core Java, OOP, and backend logic design.

Google UX Design Professional Certificate: Completed a 7-course program on wireframing, Figma, and HCI principles.

Cisco Networking Academy – Python Essentials 1: Mastered network simulation, protocol analysis, and Python scripting.

Google Developer Groups (GDG): Engaged in collaborative workshops and community-driven initiatives.
